

On the Air

[A]

Ooh, I feel it everywhere
It's cold breathing in the dark
Take me on, I'll lead you there
And call me when you'll be far
I don't wanna let you down
Slow leaving up too long
Ooh, I feel it in the air
You know me, I'll keep you on

[A]

It's evident you want me now (Baby)
My heart's beating on the floor
I see it and then turn around
You move me but I want more
The memory is in the air - (The memory is in the air)
And music is all we need
Ooh, I feel it, can't you see? - (Can't you see?)
You know me, I'll keep you there

[B]

Ooh, I get that feeling
Can I take you on a ride? - (Take you on a ride?)
Knowing what I know
I can see it, baby, in your eyes
'Cause it's going, we're full 'til the morning
On the burning night, hey
I can take a chance
Loving your romance tonight

[A]

Girl, you know you turn me on - (Know you turn me on)
I like it, oh, can't you see?
The way you're moving on the floor - (Moving on the floor)
The fire, the way you breathe
Can I take you home tonight? - (You can take me home tonight)
We're flying beneath the sheets
Holding on to make me strong (Ooh)
Tonight is the night I need
